Type of Recovery	N/A	N/A	Sensible only	Sensible + Latent	Sensible only	Sensible + Latent	Sensible only	Sensible + Latent	Sensible only	Sensible + Latent
Control Option	Wired 24/7	Wall control included with 3 modes: Normal, Boost & Recirculation	VT4W wall control (Min/Max/Intermittent: 20-Min. On/40-Min. Off)	VT4W wall control (Min/Max/Intermittent: 20-Min. On/40-Min. Off)	VT1W (Central Wall), VB20W (20-Min Timer), DH100W (Remote Dehum.), 59W (60-Min Timer), VT2W (electro wall control)	VT1W (Central Wall), VB20W (20-Min Timer), DH100W (Remote Dehum.), 59W (60-Min Timer), VT2W (electro wall control)	VT1W (Central Wall), VB20W (20-Min Timer), DH100W (Remote Dehum.), 59W (60-Min Timer), VT2W (electro wall control)	VT1W (Central Wall), VB20W (20-Min Timer), DH100W (Remote Dehum.), 59W (60-Min Timer), VT2W (electro wall control)	Wall control included with 3 modes: Normal, Boost & Recirculation	Wall control included with 3 modes: Normal, Boost & Recirculation
HVI Certified	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Warranty	3 Years	2 Years	2 Years	2 Years	2 Years	2 Years	2 Years	2 Years	2 Years	2 Years
Pros	Nearly silent operation (0.3 to 1.4 sones)	Cost-effective solution to dilute contaminants	20% smaller than other units on the market	20% smaller than other units on the market	Reliable unit with durable parts	Slows the transfer of moisture between the outdoors and indoors	Reliable unit with durable parts	Slows the transfer of moisture between the outdoors and indoors	Most complete solution for indoor air quality: fresh air ventilation + HEPA filtration + sensible heat recovery	Most complete solution for indoor air quality: fresh air ventilation + HEPA filtration + sensible heat recovery + latent energy recovery
	Affordable solution for continuous ventilation	Balanced ventilation	Flexible port configuration for horizontal and vertical installation	Flexible port configuration for horizontal and vertical installation	Smart defrost system keeps ice out of the core	Smart defrost system keeps ice out of the core	Smart defrost system keeps ice out of the core	Smart defrost system keeps ice out of the core	Easiest unit to install with special tandem that provides a single home outlet	Easiest unit to install with special tandem that provides a single home outlet
	Easy installation	Control included	Easy access to unit with bottom door opening	Easy access to unit with bottom door opening	Solid balanced ventilation performance	Solid balanced ventilation performance	Solid balanced ventilation performance	Solid balanced ventilation performance	Aesthetic design, compact unit	Aesthetic design, compact unit
Cons	Infiltration / negative pressure	Does not temper the incoming air	5" duct ports	5" duct ports	Size of the unit	Size of the unit	Size of the unit	Size of the unit	Replacement of HEPA filters every 12-14 months	Replacement of HEPA filters every 12-14 months

Specifications subject to change without notice.
* cfm: Cubic feet per minute
